

## Royal Palm Hotel

Set in 500 acres of private tropical forest, the Royal Palm is the undoubted queen of Galapagos hotels. Her selection of just 17 private villas, studios and suites offer unparalleled comfort and style in a setting that is to die for, away from the crowds, sheltered by lush tropical greenery and with views of the Pacific Ocean and the green highlands of Santa Cruz in the background.

All the villas, suites and studios include either an indoor or outdoor jacuzzi, so even if you don't fancy the stunning pool area, you can lie back in the water and relax with a stunning Galapagos view in front of you. For total relaxation, there is even an on-site health and well-being centre, with sauna, steam room and massage specialists so you can unwind after your trips on a private yacht to visit the other islands in the Galapagos Archipelago.
